In 2018, leading education nonprofits AdvancED® and Measured Progress® came together. With more than a century of experience in accreditation and school improvement and decades of leadership in student assessment solutions, the new organization—Cognia™—brings institutions around the world a new, holistic way to view school performance and student achievement.

To assure that our Performance Standards remain relevant and forward-thinking, we undertake review and development of our Standards on a recurring 5-year cycle. We expect to publish new Cognia standards early in 2021; accreditation reviews based on the new standards will begin in school year 2022–23. The AdvancED Performance Standards in this document remain in effect until then.

# AdvancED® Performance Standards

Continuous improvement that results in success for all learners should be the goal of every institution. The *Improvement Journey* for each institution may look different but should always include measures of quality of learning and instruction. The *AdvancED Performance Standards* serve this purpose by providing a set of evaluative criteria that lays the foundation for improvement planning and implementation. Based on rigorous research and best practices, the Standards are a powerful tool for driving institutional change.

AdvancED is committed to quality and meeting the needs of the educational institutions we serve. Every five years, we use an iterative process to review, revise and renew our Standards to ensure they remain relevant and challenge institutions to reach higher. Our guiding question is: What will support the success of each and every learner?

The *AdvancED Performance Standards* embody our belief that high quality learning can transform lives, communities and the world.

## **Anatomy of the *AdvancED Performance Standards***

The new Standards, varying in number based on institution type, are organized under three Domains:

- 1** Leadership Capacity
- 2** Learning Capacity
- 3** Resource Capacity

The Domains are statements that define the capacity of an organization or institution to provide quality and meet the rigorous demands of continuous improvement. Each Domain is further defined by Standards.

The *AdvancED Performance Standards* are research-based statements that describe conditions that are necessary for institutions to support organizational effectiveness and improve student performance.

Collectively, the elements of the *AdvancED Performance Standards* serve as a road map for the continuous improvement process for institutions and as the foundation of the accreditation process used by AdvancED Review Teams to provide relevant and quality feedback on how institutions are serving the learner.

Institutions ensure that resources are aligned with the stated mission and are distributed equitably so that the needs of learners are adequately and effectively addressed.
